

To whom it may concern,

I just found out that Low Power FM stations could take priority over current FM stations. This means I could lose the signal I get from Air 1. I hope that doesn't happen because no other station around here plays music like Air 1. They also have great interviews of Christian missionaries, youth leaders, and other Christian speakers and they also have bible verses of the day. I think it's nice to hear these things on a radio station. I would be heartbroken if I couldn't listen to Air 1. Air 1 plays good music that my parents like for me to listen to. It's clean music with a rock and roll edge that's really hard to find. If I couldn't get Air 1 on the radio I would have to find something else to listen to. That means I probably wouldn't have anything clean to listen to that has the rock and roll edge that I like. I really hope that I don't lose my Air 1 signal if I do then several people in the area around me would also lose their signal. If that does happen I think it would be a great loss because there isn't a single station like Air one around here. Thanks for listening to me.

An Air 1 listener,

Leah Barnett
